### Utilization Guideline

Allergy testing LCD's are broken down based on CPT. All of our allergens use CPT 86003 so these are the ICD-9 codes that will meet medical necessity and can be listed in the test directory.

## Allergy Testing and Allergy Immunotherapy

CPT code 86003 will be covered only twenty four (24) times in a year, up to two (2) panels a year contain up to twelve (12) each panel. Services exceeding this parameter will be considered not medically necessary.
